

DRY-RUN GUIDE | 04_echo_number.js

Source: javascript\1st_belt\04_echo_number.js

CORE BEHAVIOR

Reads stdin, trims it, and prints the text in a fixed 'You entered:' format; it does not parse or validate a numeric value.

REPRESENTATIVE INPUT / CALL

Input: '252525'.

STEP TRACE

Trimmed input remains '252525'; template literal adds the label.

EXPECTED OUTPUT / RETURN

'You entered: 252525'

ACTUAL SOURCE EXCERPT

Verbatim lines from the source; long lines wrap. Source files were not modified.

```
001 | // Question:
002 | // Ask for a number, store it in a variable, and print it back.
003 | // Required output format: You entered: <number>
004 | // Example: Input: 252525 -> Output: You entered: 252525
005 |
006 | const fs = require("fs");
007 | const input = fs.readFileSync(0, "utf8").trim();
008 | console.log('You entered: ${input}');
009 |
```
